Giving Back

For every COA registration, Transitions Optical makes a donation to preserve the future of healthy sight through the *Transitions Healthy Sight for Life™ Fund*.

Transitions
ADAPTIVE LENSES

New!
Transitions
Signature

INTRODUCING Transitions® Signature™

You deserve more than an ordinary clear lens.

8 out of 10 clear lens wearers prefer our newest lenses, *Transitions Signature* lenses, to their current clear lenses.

All Transitions® everyday adaptive lenses have a mode for every moment.

Transitions adaptive lenses **optimize the amount of light** that reaches your eyes, going beyond vision correction, to reduce glare, eye fatigue and strain, for more effortless sight. They also **block 100% UVA/UVB light.**

Photochromic performance and polarization are influenced by temperature, UV exposure and lens material. U14P001 LTRN200384 NJGD/TOI 1/14

What makes them better?

Chromea7
Technology

This exclusive molecular formulation is the technology inside the lens that allows it to be:

More reactive to indirect sunlight.

More reactive to get even darker on hot days.

Transitions®
Signature

Completely clear indoors, just the right amount of tint outdoors.

- More responsive in more situations.
- Begin to darken instantly—as soon as you step outdoors.
- Fastest fadeback to clear indoors.

Colors:  Gray  Brown

Great for:

- Those interested in outdoor comfort provided by adaptive lenses but only if they go completely clear indoors.
- Those who spend a typical amount of time indoors vs. outdoors.
- Those who currently wear clear lenses and are new to Transitions lenses.

Transitions®
XTRActive

Always active for extra protection.

- Activate behind the windshield of a car.
- Provide added protection against eyestrain and fatigue.
- Comfortable hint of tint indoors to shield your eyes from harsh indoor light.

Color:  Gray

Great for:

- Those interested in protecting their eyes from all kinds of light, indoors and out.
- Those who are frequently both indoors and outdoors.
- Those who want a lens that darkens in the car.

Transitions®
Vantage

Crisper, sharper vision outdoors, even in the brightest glare.

- The only lens with variable polarization which adjusts to match the level of outdoor glare.
- Outdoors they adapt to changing light, and polarize as they darken.
- Hint of tint indoors.

Color:  Gray

Great for:

- Those who appreciate more vibrant and vivid visual experiences.
- Those who spend more time outdoors, and are looking for lenses for their outdoor activities.
- Those interested in breakthrough technology.

Adaptive sun lenses for your driving needs.

Transitions®
DRIVEWEAR

A superior driving experience.

- Polarized lenses reduce glare and optimize color contrast, continuously adapting to changing daylight and weather conditions.
- Adjusts the color and tint of the lenses as light conditions change, providing ideal color and clarity for driving.

Color:  Olive green to Cooper to Brown

Sunglasses for a visual advantage.

Ask about Transitions line of adaptive sunglasses and shields that are designed to enhance your vision during specific outdoor sports and activities.
